

Inhibin β-A Polyclonal Antibody

Catalog # AP73592

Product Information

Application WB, IHC-P **Primary Accession** P08476

Reactivity Human, Mouse, Rat

HostRabbitClonalityPolyclonalCalculated MW47442

Additional Information

Gene ID 3624

Other Names INHBA; Inhibin beta A chain; Activin beta-A chain; Erythroid differentiation

protein; EDF

Dilution WB~~Western Blot: 1/500 - 1/2000. IHC-p: 1/100-1/300. ELISA: 1/20000. Not

yet tested in other applications. IHC-P~~Western Blot: 1/500 - 1/2000. IHC-p:

1/100-1/300. ELISA: 1/20000. Not yet tested in other applications.

Format Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.09% (W/V) sodium

azide.

Storage Conditions -20°C

Protein Information

Name INHBA

Function Inhibins/activins are involved in regulating a number of diverse functions

such as hypothalamic and pituitary hormone secretion, gonadal hormone secretion, germ cell development and maturation, erythroid differentiation, insulin secretion, nerve cell survival, embryonic axial development or bone

growth, depending on their subunit composition.

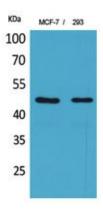

Cellular Location Secreted.

Background

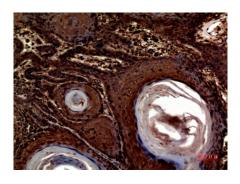

Inhibins and activins inhibit and activate, respectively, the secretion of follitropin by the pituitary gland. Inhibins/activins are involved in regulating a number of diverse functions such as hypothalamic and pituitary hormone secretion, gonadal hormone secretion, germ cell development and maturation, erythroid differentiation, insulin secretion, nerve cell survival, embryonic axial development or bone growth,

depending on their subunit composition. Inhibins appear to oppose the functions of activins.

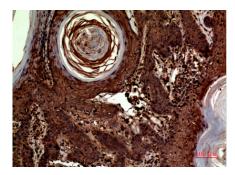

Images

Western Blot analysis of MCF-7, 293 cells using Inhibin β -A Polyclonal Antibody.. Secondary antibody was diluted at 1:20000

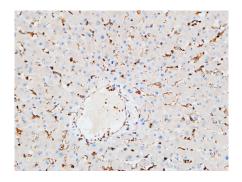

Immunohistochemical analysis of paraffin-embedded human-skin, antibody was diluted at 1:100

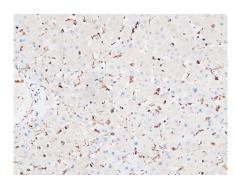

Immunohistochemical analysis of paraffin-embedded human-skin, antibody was diluted at 1:100

Immunohistochemical analysis of paraffin-embedded Human liver. 1, Antibody was diluted at 1:200(4°,overnight). 2, High-pressure and temperature EDTA, pH8.0 was used for antigen retrieval. 3,Secondary antibody was diluted at 1:200(room temperature, 30min).

Immunohistochemical analysis of paraffin-embedded Human liver. 1, Antibody was diluted at 1:200(4°,overnight). 2, High-pressure and temperature EDTA, pH8.0 was used for antigen retrieval. 3,Secondary antibody was diluted at 1:200(room temperature, 30min).
