

# CD235a Polyclonal Antibody

Catalog # AP73821

### **Product Information**

Application WB, IHC-P
Primary Accession P02724
Reactivity Human
Host Rabbit
Clonality Polyclonal
Calculated MW 16430

#### **Additional Information**

**Gene ID** 2993

Other Names GYPA; GPA; Glycophorin-A; MN sialoglycoprotein; PAS-2; Sialoglycoprotein

alpha; CD235a

**Dilution** WB~~Western Blot: 1/500 - 1/2000. IHC-p: 1:100-1:300. ELISA: 1/10000. Not

yet tested in other applications. IHC-P~~N/A

Format Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.09% (W/V) sodium

azide.

Storage Conditions -20°C

#### **Protein Information**

Name GYPA ( HGNC:4702)

**Function** Component of the ankyrin-1 complex, a multiprotein complex involved in

the stability and shape of the erythrocyte membrane (PubMed:<u>35835865</u>). Glycophorin A is the major intrinsic membrane protein of the erythrocyte. The

N-terminal glycosylated segment, which lies outside the erythrocyte membrane, has MN blood group receptors. Appears to be important for the

function of SLC4A1 and is required for high activity of SLC4A1. May be involved in translocation of SLC4A1 to the plasma membrane.

**Cellular Location** Cell membrane; Single-pass type I membrane protein Note=Appears to be

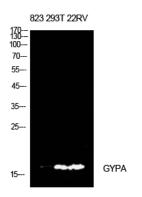

colocalized with SLC4A1

# **Background**

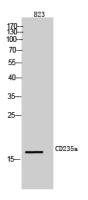

Glycophorin A is the major intrinsic membrane protein of the erythrocyte. The N-terminal glycosylated segment, which lies outside the erythrocyte membrane, has MN blood group receptors. Appears to be important for the function of SLC4A1 and is required for high activity of SLC4A1. May be involved in

translocation of SLC4A1 to the plasma membrane. Is a receptor for influenza virus. Is a receptor for Plasmodium falciparum erythrocyte-binding antigen 175 (EBA-175); binding of EBA-175 is dependent on sialic acid residues of the O-linked glycans. Appears to be a receptor for Hepatitis A virus (HAV).

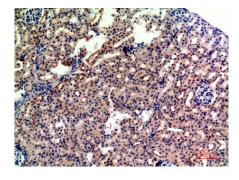

## **Images**

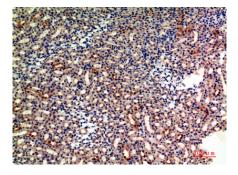

Western Blot analysis of 823, 293T, 22RV cells using CD235a Polyclonal Antibody. Antibody was diluted at 1:500. Secondary antibody was diluted at 1:20000
