

Polyclonal Antibody to Brain Derived Neurotrophic Factor (BDNF)

Brain Derived Neurotrophic Factor
Catalog # AP74520

Product Information

Application	WB
Primary Accession	P25429
Host	Rabbit
Clonality	Polyclonal
Calculated MW	27715

Additional Information

Gene ID	396186
Other Names	Neurotrophin; Abrineurin
Target/Specificity	Chicken (Gallus)
Dilution	WB~~Western blotting: 0.5-2 μ g/mL;1:150-600 Immunohistochemistry: 5-20 μ g/mL;1:15-60 Immunocytochemistry: 5-20 μ g/mL;1:15-60 Optimal working dilutions must be determined by end user.
Format	0.01M PBS, pH7.4, containing 0.05% Proclin-300, 50% glycerol.
Storage	Store at -20 °C.Stable for 12 months from date of receipt

Protein Information

Name	BDNF
Function	Important signaling molecule that activates signaling cascades downstream of NTRK2 (By similarity). During development, promotes the survival and differentiation of selected neuronal populations of the peripheral and central nervous systems. Participates in axonal growth, pathfinding and in the modulation of dendritic growth and morphology. Major regulator of synaptic transmission and plasticity at adult synapses in many regions of the CNS. The versatility of BDNF is emphasized by its contribution to a range of adaptive neuronal responses including long-term potentiation (LTP), long-term depression (LTD), certain forms of short-term synaptic plasticity, as well as homeostatic regulation of intrinsic neuronal excitability (By similarity).
Cellular Location	Secreted {ECO:0000250 UniProtKB:P23560}.
