

Polyclonal Antibody to Macrophage Inflammatory Protein 1 Beta (MIP1b)

Macrophage Inflammatory Protein 1 Beta
Catalog # AP74560

Product Information

Application	WB
Primary Accession	Q8HYQ2
Host	Rabbit
Clonality	Polyclonal
Calculated MW	10103

Additional Information

Gene ID	574217
Other Names	CCL4; ACT2; G-26; LAG1; MIP1-B; SCYA4; Chemokine C-C-Motif Ligand 4; Small Inducible Cytokine A4; Homologous To Mouse Mip-1b
Target/Specificity	Rhesus monkey (Simian)
Dilution	WB~~Western blotting: 0.5-2 μ g/mL; Immunohistochemistry: 5-20 μ g/mL; Immunocytochemistry: 5-20 μ g/mL; Optimal working dilutions must be determined by end user.
Format	PBS, pH7.4, containing 0.02% NaN3, 50% glycerol.
Storage	Store at -20 °C.Stable for 12 months from date of receipt

Protein Information

Name	CCL4
Synonyms	MIP1B, SCYA4
Function	Monokine with inflammatory and chemokinetic properties.
Cellular Location	Secreted.
Tissue Location	Detected in peripheral blood mononuclear cells and lymph nodes.

Images

Figure. Western Blot; Sample: Recombinant MIP1b, Simian.
