

ENO3 Rabbit mAb

Catalog # AP75400

Product Information

| | |
|--------------------------|------------------------|
| Application | WB, ICC |
| Primary Accession | P13929 |
| Reactivity | Human, Mouse, Rat |
| Host | Rabbit |
| Clonality | Monoclonal Antibody |
| Calculated MW | 46987 |

Additional Information

| | |
|--------------------|---------------------------|
| Gene ID | 2027 |
| Other Names | ENO3 |
| Dilution | WB~~1/500-1/1000 ICC~~N/A |
| Format | Liquid |

Protein Information

| | |
|--------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Name | ENO3 |
| Function | Glycolytic enzyme that catalyzes the conversion of 2- phosphoglycerate to phosphoenolpyruvate. Appears to have a function in striated muscle development and regeneration. |
| Cellular Location | Cytoplasm. Note=Localized to the Z line. Some colocalization with CKM at M-band (By similarity). |
| Tissue Location | The alpha/alpha homodimer is expressed in embryo and in most adult tissues. The alpha/beta heterodimer and the beta/beta homodimer are found in striated muscle, and the alpha/gamma heterodimer and the gamma/gamma homodimer in neurons |
