

# FUBP1 Rabbit mAb

Catalog # AP75460

## Product Information

|                   |                        |
|-------------------|------------------------|
| Primary Accession | <a href="#">Q96AE4</a> |
| Host              | Rabbit                 |
| Clonality         | Monoclonal Antibody    |
| Calculated MW     | 67560                  |

## Additional Information

|             |                                                                                          |
|-------------|------------------------------------------------------------------------------------------|
| Gene ID     | 8880                                                                                     |
| Other Names | FUBP1                                                                                    |
| Format      | Liquid                                                                                   |
| Storage     | Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles. |

## Protein Information

|                   |                                                                                                                                                                               |
|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Name              | FUBP1                                                                                                                                                                         |
| Function          | Regulates MYC expression by binding to a single-stranded far- upstream element (FUSE) upstream of the MYC promoter. May act both as activator and repressor of transcription. |
| Cellular Location | Nucleus.                                                                                                                                                                      |
