

# **HBEGF Rabbit mAb**

Catalog # AP75527

## **Product Information**

Application WB
Primary Accession Q99075

Reactivity Human, Mouse, Rat

**Host** Rabbit

**Clonality** Monoclonal Antibody

Calculated MW 23067

#### **Additional Information**

**Gene ID** 1839

Other Names HBEGF

**Dilution** WB~~1/500-1/1000

Format 50mM Tris-Glycine(pH 7.4), 0.15M NaCl, 40%Glycerol, 0.01% sodium azide and

0.05% BSA.

**Storage** Store at 4°C short term. Aliquot and store at -20°C long term. Avoid

freeze/thaw cycles.

### **Protein Information**

Name HBEGF

**Synonyms** DTR, DTS, HEGFL

**Function** Growth factor that mediates its effects via EGFR, ERBB2 and ERBB4. Required

for normal cardiac valve formation and normal heart function. Promotes smooth muscle cell proliferation. May be involved in macrophage-mediated cellular proliferation. It is mitogenic for fibroblasts, but not endothelial cells. It is able to bind EGF receptor/EGFR with higher affinity than EGF itself and is a far more potent mitogen for smooth muscle cells than EGF. Also acts as a

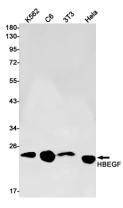

diphtheria toxin receptor.

**Cellular Location** [Heparin-binding EGF-like growth factor]: Secreted, extracellular space.

Note=Mature HB-EGF is released into the extracellular space and probably

binds to a receptor
