

ACO2 Antibody (Center)

Purified Rabbit Polyclonal Antibody (Pab) Catalog # AP7561C

Product Information

Application WB, IHC-P, E **Primary Accession** Q99798 Reactivity Human Host Rabbit Clonality Polyclonal Isotype Rabbit IgG **Calculated MW** 85425 **Antigen Region** 294-325

Additional Information

Gene ID 50

Other Names Aconitate hydratase, mitochondrial, Aconitase, Citrate hydro-lyase, ACO2

Target/Specificity This ACO2 antibody is generated from rabbits immunized with a KLH

conjugated synthetic peptide between 294-325 amino acids from the Central

region of human ACO2.

Dilution WB~~1:1000 IHC-P~~1:100~500 E~~Use at an assay dependent concentration.

Format Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide.

This antibody is prepared by Saturated Ammonium Sulfate (SAS) precipitation

followed by dialysis against PBS.

Storage Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store

at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions ACO2 Antibody (Center) is for research use only and not for use in diagnostic

or therapeutic procedures.

Protein Information

Name ACO2

Function Catalyzes the isomerization of citrate to isocitrate via cis- aconitate.

Cellular Location Mitochondrion {ECO:0000250 | UniProtKB:P16276}.

Background

ACO2 belongs to the aconitase/IPM isomerase family. It is an enzyme that catalyzes the interconversion of citrate to isocitrate via cis-aconitate in the second step of the TCA cycle. It was found to be one of the mitochondrial matrix proteins that are preferentially degraded by the serine protease 15(PRSS15), also known as Lon protease, after oxidative modification.

Secondary Goat Anti-Rabbit IgG, (H+L), Peroxidase conjugated at 1/10000 dilution. Predicted band size: 85 kDa Blocking/Dilution buffer: 5% NFDM/TBST.

Western blot analysis of ACO2 (arrow) using rabbit polyclonal ACO2 Antibody (Center) (Cat.#AP7561c).293 cell lysates (2 ug/lane) either nontransfected (Lane 1) or transiently transfected with the ACO2 gene (Lane 2) (Origene Technologies).

Formalin-fixed and paraffin-embedded human breast carcinoma tissue reacted with ACO2 antibody (Center) (Cat.#AP7561c), which was peroxidase-conjugated to the secondary antibody, followed by DAB staining. This data demonstrates the use of this antibody for immunohistochemistry; clinical relevance has not been evaluated.
