

MSRB3 Rabbit mAb

Catalog # AP75743

Product Information

Application	WB
Primary Accession	Q8IXL7
Reactivity	Mouse, Rat
Host	Rabbit
Clonality	Monoclonal Antibody
Calculated MW	20702

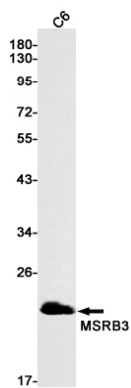

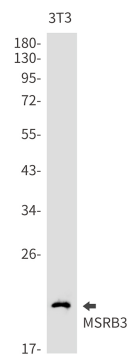

Additional Information

Gene ID	253827
Other Names	MSRB3
Dilution	WB~~1/500-1/1000
Format	Liquid

Protein Information

Name	MSRB3
Function	Catalyzes the reduction of free and protein-bound methionine sulfoxide to methionine. Isoform 2 is essential for hearing.
Cellular Location	[Isoform 1]: Endoplasmic reticulum.
Tissue Location	Widely expressed.
