

RhoGDI Rabbit mAb

Catalog # AP76022

Product Information

Application WB Primary Accession P52565

Reactivity Human, Mouse, Rat

Host Rabbit

Clonality Monoclonal Antibody

Calculated MW 23207

Additional Information

Gene ID 396

Other Names ARHGDIA

Dilution WB~~1/500-1/1000

Format 50mM Tris-Glycine(pH 7.4), 0.15M NaCl, 40%Glycerol, 0.01% sodium azide and

0.05% BSA.

Storage Store at 4°C short term. Aliquot and store at -20°C long term. Avoid

freeze/thaw cycles.

Protein Information

Name ARHGDIA

Synonyms GDIA1

Function Controls Rho proteins homeostasis. Regulates the GDP/GTP exchange

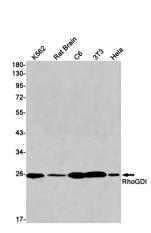

reaction of the Rho proteins by inhibiting the dissociation of GDP from them, and the subsequent binding of GTP to them. Retains Rho proteins such as CDC42, RAC1 and RHOA in an inactive cytosolic pool, regulating their stability and protecting them from degradation. Actively involved in the recycling and distribution of activated Rho GTPases in the cell, mediates extraction from membranes of both inactive and activated molecules due its exceptionally high affinity for prenylated forms. Through the modulation of Rho proteins, may play a role in cell motility regulation. In glioma cells, inhibits cell

migration and invasion by mediating the signals of SEMA5A and PLXNB3 that

lead to inactivation of RAC1.

Cellular Location Cytoplasm.
