

# CSDE1 Rabbit mAb

Catalog # AP76451

## Product Information

---

|                   |                        |
|-------------------|------------------------|
| Primary Accession | <a href="#">O75534</a> |
| Host              | Rabbit                 |
| Clonality         | Monoclonal Antibody    |
| Calculated MW     | 88885                  |

## Additional Information

---

|             |                                                                                          |
|-------------|------------------------------------------------------------------------------------------|
| Gene ID     | 7812                                                                                     |
| Other Names | CSDE1                                                                                    |
| Format      | Liquid                                                                                   |
| Storage     | Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles. |

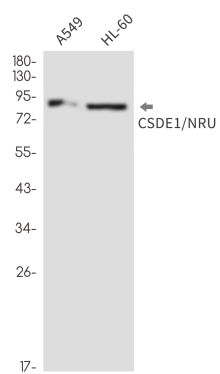

## Protein Information

---

|                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|-------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Name              | CSDE1 ( <a href="#">HGNC:29905</a> )                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Function          | RNA-binding protein involved in translationally coupled mRNA turnover (PubMed: <a href="#">11051545</a> , PubMed: <a href="#">15314026</a> ). Implicated with other RNA- binding proteins in the cytoplasmic deadenylation/translational and decay interplay of the FOS mRNA mediated by the major coding-region determinant of instability (mCRD) domain (PubMed: <a href="#">11051545</a> , PubMed: <a href="#">15314026</a> ). Required for efficient formation of stress granules (PubMed: <a href="#">29395067</a> ). |
| Cellular Location | Cytoplasm. Cytoplasm, Stress granule. Cytoplasm, P-body                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
