

FACL4 Rabbit mAb

Catalog # AP76493

Product Information

Primary Accession	O60488
Host	Rabbit
Clonality	Monoclonal Antibody
Calculated MW	79188

Additional Information

Gene ID	2182
Other Names	ACSL4
Format	Liquid
Storage	Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles.

Protein Information

Name	ACSL4
Synonyms	ACS4, FACL4, LACS4
Function	Catalyzes the conversion of long-chain fatty acids to their active form acyl-CoA for both synthesis of cellular lipids, and degradation via beta-oxidation (PubMed: 21242590 , PubMed: 22633490 , PubMed: 24269233 , PubMed: 31061331 , PubMed: 38720107). Preferentially activates arachidonate and eicosapentaenoate as substrates (PubMed: 21242590). Preferentially activates 8,9-EET > 14,15-EET > 5,6- EET > 11,12-EET (PubMed: 21242590). Modulates glucose-stimulated insulin secretion by regulating the levels of unesterified EETs (By similarity). Modulates prostaglandin E2 secretion (PubMed: 21242590). Acts as an activator of ferroptosis by activating polyunsaturated fatty acids, especially arachidonate and adrenate, to their active form, generating the primary lipid-peroxidation substrates that contribute to ferroptosis (PubMed: 27842070 , PubMed: 35027735 , PubMed: 38720107).
Cellular Location	Mitochondrion outer membrane; Single-pass type III membrane protein. Endoplasmic reticulum membrane; Single-pass type III membrane protein. Cell membrane; Single-pass type III membrane protein
