

Thromboxane A2 receptor Rabbit mAb

Catalog # AP78807

Product Information

Application	WB
Primary Accession	P21731
Reactivity	Rat, Human, Mouse
Host	Rabbit
Clonality	Monoclonal Antibody
Isotype	IgG
Conjugate	Unconjugated
Immunogen	A synthesized peptide derived from human Thromboxane A2 receptor
Purification	Affinity Chromatography
Calculated MW	37431

Additional Information

Gene ID	6915
Other Names	TBXA2R
Dilution	WB~~1/500-1/1000
Format	Liquid in 10mM PBS, pH 7.4, 150mM sodium chloride, 0.05% BSA, 0.02% sodium azide and 50% glycerol.
Storage	Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles.

Protein Information

Name	TBXA2R
Function	Receptor for thromboxane A2 (TXA2), a potent stimulator of platelet aggregation. The activity of this receptor is mediated by a G- protein that activates a phosphatidylinositol-calcium second messenger system. In the kidney, the binding of TXA2 to glomerular TP receptors causes intense vasoconstriction. Activates phospholipase C.
Cellular Location	Cell membrane; Multi-pass membrane protein.
