

MPZ Antibody (C-term)

Affinity Purified Rabbit Polyclonal Antibody (Pab) Catalog # AP8621b

Product Information

Application WB, FC, IHC-P, E

Primary Accession P25189

Reactivity Human, Rat, Mouse

HostRabbitClonalityPolyclonalIsotypeRabbit IgGClone NamesRB21459Calculated MW27555Antigen Region186-215

Additional Information

Gene ID 4359

Other Names Myelin protein P0, Myelin peripheral protein, MPP, Myelin protein zero, MPZ

Target/Specificity This MPZ antibody is generated from rabbits immunized with a KLH

conjugated synthetic peptide between 186-215 amino acids from the

C-terminal region of human MPZ.

Dilution WB~~1:1000 FC~~1:10~50 IHC-P~~1:100~500 E~~Use at an assay dependent

concentration.

Format Purified polyclonal antibody supplied in PBS with 0.05% (V/V) Proclin 300. This

antibody is purified through a protein A column, followed by peptide affinity

purification.

Storage Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store

at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions MPZ Antibody (C-term) is for research use only and not for use in diagnostic

or therapeutic procedures.

Protein Information

Name MPZ

Function Is an adhesion molecule necessary for normal myelination in the peripheral

nervous system. It mediates adhesion between adjacent myelin wraps and

ultimately drives myelin compaction.

Cellular Location

Cell membrane; Single-pass type I membrane protein

Tissue Location

Found only in peripheral nervous system Schwann cells

Background

MPZ is a major structural protein of peripheral myelin. Creation of an extracellular membrane face which guides the wrapping process and ultimately compacts adjacent lamellae.

Secondary Goat Anti-Rabbit IgG, (H+L), Peroxidase conjugated at 1/2000 dilution. Predicted band size: 28 kDa Blocking/Dilution buffer: 5% NFDM/TBST.

MPZ Antibody (C-term) (Cat. #AP8621b) flow cytometric analysis of CEM cells (bottom histogram) compared to a negative control cell (top histogram).FITC-conjugated goat-anti-rabbit secondary antibodies were used for the analysis.

MPZ Antibody (C-term) (Cat. #AP8621b) immunohistochemistry analysis in formalin fixed and paraffin embedded human brain tissue followed by peroxidase conjugation of the secondary antibody and DAB staining. This data demonstrates the use of the MPZ Antibody (C-term) for immunohistochemistry. Clinical relevance has not been evaluated.
