

JunD Antibody

Rabbit mAb Catalog # AP90908

Product Information

Application WB, IF, ICC, IP

Primary Accession P17535
Reactivity Human
Clonality Monoclonal

Other Names Activator protein 1; AP 1; Jun D; jun D proto oncogene; Jund; JunD FL isoform;

Transcription factor jun D;

IsotypeRabbit IgGHostRabbitCalculated MW35174

Additional Information

Dilution WB 1:1000~1:2000 ICC/IF 1:50~1:200 IP 1:50

Purification Affinity-chromatography

Immunogen A synthesized peptide derived from human JunD

Description JunD, along with closely related family members c-Jun and JunB, is a

transcription factor that can activate or repress a wide array of target genes. JunD transcriptional activity is modulated by phosphorylation in response to cellular stress via the c-Jun N-terminal Kinase (JNK)/Stress-Activated Protein Kinase (SAPK) family of protein kinases. JunD activity can also be modulated

by the MAPK pathway in response to growth factors.

Storage Condition and Buffer Rabbit IgG in phosphate buffered saline, pH 7.4, 150mM NaCl, 0.02% sodium

azide and 50% glycerol. Store at +4°C short term. Store at -20°C long term.

Avoid freeze / thaw cycle.

Protein Information

Name JUND

Function Transcription factor binding AP-1 sites (PubMed: 9989505). Heterodimerizes

with proteins of the FOS family to form an AP-1 transcription factor complex, thereby enhancing their DNA binding activity to an AP-1 consensus sequence

3'-TGA[GC]TCA-5' and enhancing their transcriptional activity

(PubMed: 28981703, PubMed: 9989505).

Cellular Location Nucleus.

Images

Western blot analysis of JunD expression in HeLa cell lysate.
