

# Hepcidin Antibody

Rabbit mAb Catalog # AP91230

#### **Product Information**

ApplicationWBPrimary AccessionP81172ReactivityRat, HumanClonalityMonoclonal

Other Names Hepcidin; Liver-expressed antimicrobial peptide 1; LEAP-1; Putative liver

tumor regressor; PLTR; Hepcidin-25; Hepc25; Hepcidin-20; Hepc20; HAMP;

HEPC; LEAP1;

IsotypeRabbit IgGHostRabbitCalculated MW9408

## **Additional Information**

**Dilution** WB 1:500~1:2000 **Purification** Affinity-chromatography

**Immunogen** A synthesized peptide derived from human Hepcidin

**Description** Hepcidin, also known as HAMP, HEPC, LEAP1 or HFE2B, is an 84 amino acid

secreted protein that regulates iron-related signaling events. Acts by promoting endocytosis and degradation of ferroportin, leading to the retention of iron in iron-exporting cells and decreased flow of iron into

plasma.

Storage Condition and Buffer Rabbit IgG in phosphate buffered saline, pH 7.4, 150mM NaCl, 0.02% sodium

azide and 50% glycerol. Store at +4°C short term. Store at -20°C long term.

Avoid freeze / thaw cycle.

### **Protein Information**

Name HAMP ( HGNC:15598)

Synonyms HEPC, LEAP1

**Function** Liver-produced hormone that constitutes the main circulating regulator of

iron absorption and distribution across tissues. Acts by promoting

endocytosis and degradation of ferroportin/SLC40A1, leading to the retention

of iron in iron-exporting cells and decreased flow of iron into plasma (PubMed:22682227, PubMed:29237594, PubMed:32814342). Controls the major flows of iron into plasma: absorption of dietary iron in the intestine, recycling of iron by macrophages, which phagocytose old erythrocytes and

other cells, and mobilization of stored iron from hepatocytes

(PubMed:22306005).

#### **Cellular Location**

Secreted.

### **Tissue Location**

Highest expression in liver and to a lesser extent in heart and brain. Low levels in lung, tonsils, salivary gland, trachea, prostate gland, adrenal gland and thyroid gland. Secreted into the urine and blood (PubMed:11034317). Expressed by hepatocytes (PubMed:15124018).
