

ANP Antibody

Rabbit mAb Catalog # AP91605

Product Information

ApplicationWB, IPPrimary AccessionP01160ReactivityHumanClonalityMonoclonal

Other Names ANF; ANP; PND; ATFB6; CDD-ANF; NPPA; Natriuretic peptides A; LANP; VSDL;

IsotypeRabbit IgGHostRabbitCalculated MW16396

Additional Information

Dilution WB 1:500~1:2000 IP 1:50 **Purification** Affinity-chromatography

Immunogen A synthesized peptide derived from human ANP

Description Hormone playing a key role in cardiovascular homeostasis through regulation

of natriuresis, diuresis, and vasodilation. Also plays a role in female

pregnancy by promoting trophoblast invasion and spiral artery remodeling in

uterus.

Storage Condition and Buffer Rabbit IgG in phosphate buffered saline, pH 7.4, 150mM NaCl, 0.02% sodium

azide and 50% glycerol. Store at +4°C short term. Store at -20°C long term.

Avoid freeze / thaw cycle.

Protein Information

Name NPPA

Synonyms ANP, PND

Function [Atrial natriuretic peptide]: Hormone that plays a key role in mediating

cardio-renal homeostasis, and is involved in vascular remodeling and regulating energy metabolism (PubMed: 15741263, PubMed: 16875975,

PubMed:<u>18835931</u>, PubMed:<u>21672517</u>, PubMed:<u>22307324</u>, PubMed:<u>2532366</u>, PubMed:<u>2825692</u>, PubMed:<u>7720651</u>, PubMed:<u>8087923</u>, PubMed:<u>8653797</u>). Acts by specifically binding and stimulating NPR1 to produce cGMP, which in turn activates effector proteins, such as PRKG1, that drive various biological responses (PubMed:<u>1660465</u>, PubMed:<u>1672777</u>,

PubMed:21098034, PubMed:2162527, PubMed:22307324, PubMed:25401746, PubMed:2825692, PubMed:7720651, PubMed:8384600, PubMed:9893117). Regulates vasodilation, natriuresis, diuresis and aldosterone synthesis and is therefore essential for regulating blood pressure, controlling the extracellular fluid volume and maintaining the fluid-electrolyte balance (PubMed:2532366,

PubMed: 2825692, PubMed: 7595132, PubMed: 7720651, PubMed: 8087923, PubMed:8653797). Also involved in inhibiting cardiac remodeling and cardiac hypertrophy by inducing cardiomyocyte apoptosis and attenuating the growth of cardiomyocytes and fibroblasts (PubMed:16875975). Plays a role in female pregnancy by promoting trophoblast invasion and spiral artery remodeling in uterus, and thus prevents pregnancy-induced hypertension (By similarity). In adipose tissue, acts in various cGMP- and PKG-dependent pathways to regulate lipid metabolism and energy homeostasis (PubMed: 15741263, PubMed: 18835931, PubMed: 21672517, PubMed: 22307324). This includes up-regulating lipid metabolism and mitochondrial oxygen utilization by activating the AMP-activated protein kinase (AMPK), and increasing energy expenditure by acting via MAPK11 to promote the UCP1-dependent thermogenesis of brown adipose tissue (PubMed: 15741263, PubMed: 18835931, PubMed: 21672517, PubMed: 22307324). Binds the clearance receptor NPR3 which removes the hormone from circulation (PubMed:1672777).

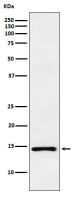

Cellular Location

[Long-acting natriuretic peptide]: Secreted. Note=Detected in blood. [Kaliuretic peptide]: Secreted. Note=Detected in blood [Atrial natriuretic peptide]: Secreted. Perikaryon. Cell projection. Note=Detected in blood (PubMed:15741263, PubMed:18835931, PubMed:2532366, PubMed:7955907, PubMed:7984506, PubMed:8351194, PubMed:8653797, PubMed:8779891). Detected in urine in one study (PubMed:8351194). However, in another study, was not detected in urine (PubMed:7984506). Detected in cytoplasmic bodies and neuronal processes of pyramidal neurons (layers II-VI) (PubMed:30534047) Increased secretion in response to the vasopressin AVP (By similarity) Likely to be secreted in response to an increase in atrial pressure or atrial stretch (PubMed:2532366). In kidney cells, secretion increases in response to activated guanylyl cyclases and increased intracellular cAMP levels (PubMed:9893117). Plasma levels increase 15 minutes after a high-salt meal, and decrease back to normal plasma levels 1 hr later (PubMed:8779891). {ECO:0000250 | UniProtKB:P01161, ECO:0000269 | PubMed:15741263, ECO:0000269 | PubMed:18835931, ECO:0000269 | PubMed:2532366, ECO:0000269 | PubMed:30534047, ECO:0000269 | PubMed:7955907, ECO:0000269 | PubMed:7984506, ECO:0000269 | PubMed:8351194, ECO:0000269 | PubMed:8653797, ECO:0000269 | PubMed:8779891, ECO:0000269 | PubMed:9893117}

Tissue Location

[Urodilatin]: Detected in the kidney distal tubular cells (at protein level) (PubMed:8384600, PubMed:9794555). Present in urine (at protein level) (PubMed:2972874, PubMed:8351194, PubMed:8779891, PubMed:9794555).
