

Aurora A (2B3) Mouse Monoclonal Antibody

Aurora A (2B3) Mouse Monoclonal Antibody

Catalog # AP93359

Product Information

Application	IHC-P, WB
Primary Accession	O014965
Reactivity	Human, Mouse, Rat
Host	Monoclonal, Mouse
Clonality	Monoclonal

Additional Information

Dilution	IHC-P~~N/A WB~~1:1000
Storage Conditions	-20°C

Protein Information

Background

Aurora A(AURKA) Homo sapiens The protein encoded by this gene is a cell cycle-regulated kinase that appears to be involved in microtubule formation and/or stabilization at the spindle pole during chromosome segregation. The encoded protein is found at the centrosome in interphase cells and at the spindle poles in mitosis. This gene may play a role in tumor development and progression. A processed pseudogene of this gene has been found on chromosome 1, and an unprocessed pseudogene has been found on chromosome 10. Multiple transcript variants encoding the same protein have been found for this gene.

Images

Western blot analysis of 1) HeLa Cell, 2) Mouse Liver Tissue, 3) Rat Liver Tissue Lysate using Aurora A Mouse mAb diluted at 1:2,000.
