

FMO6 Rabbit Polyclonal Antibody

FMO6 Rabbit Polyclonal Antibody

Catalog # AP93441

Product Information

Application	WB
Primary Accession	O60774
Reactivity	Human, Rat, Mouse
Host	Polyclonal, Rabbit, IgG
Clonality	Polyclonal
Calculated MW	61291

Additional Information

Other Names	Putative dimethylaniline monooxygenase [N-oxide-forming] 6, 1.14.13.8, Dimethylaniline oxidase 6, Flavin-containing monooxygenase 6, FMO 6, FMO6P, FMO6
Dilution	WB~~1:1000
Storage Conditions	-20°C

Protein Information

Name	FMO6P (HGNC:24024)
Synonyms	FMO6
Function	Member of the flavin-containing monooxygenase (FMO) family of NADPH-dependent monooxygenases, which catalyze the oxygenation of nucleophilic heteroatom-containing compounds such as xenobiotics and drugs. In humans, FMO6 is unlikely to encode a functional monooxygenase due to defective transcript processing and the presence of truncating variants. No enzymatic activity has been demonstrated for the human protein.
Cellular Location	Membrane; Single-pass membrane protein

Images

Western blot analysis of lysates from Hela cells, primary antibody was diluted at 1:1000, 4°over night
