

# TMEM52B Rabbit pAb

Catalog # AP96626

## Product Information

---

|                                |                                                                                                                           |
|--------------------------------|---------------------------------------------------------------------------------------------------------------------------|
| <b>Application</b>             | WB                                                                                                                        |
| <b>Host</b>                    | Rabbit                                                                                                                    |
| <b>Clonality</b>               | Polyclonal                                                                                                                |
| <b>Calculated MW</b>           | 20 kDa                                                                                                                    |
| <b>Physical State</b>          | Liquid                                                                                                                    |
| <b>Immunogen</b>               | KLH conjugated synthetic peptide derived from human TMEM52B                                                               |
| <b>Isotype</b>                 | IgG                                                                                                                       |
| <b>Purity</b>                  | affinity purified by Protein A                                                                                            |
| <b>Buffer</b>                  | 0.01M TBS(pH7.4) with 1% BSA, 0.02% Proclin300 and 50% Glycerol.                                                          |
| <b>Important Note</b>          | This product as supplied is intended for research use only, not for use in human, therapeutic or diagnostic applications. |
| <b>Background Descriptions</b> | Located in extracellular exosome. [provided by Alliance of Genome Resources, Apr 2022]                                    |

## Additional Information

---

|                    |                                                                                                                                                                                                 |
|--------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene ID</b>     | 120939                                                                                                                                                                                          |
| <b>Other Names</b> | C12orf59;                                                                                                                                                                                       |
| <b>Dilution</b>    | WB=1:500-1000                                                                                                                                                                                   |
| <b>Storage</b>     | Store at -20 °C for one year. Avoid repeated freeze/thaw cycles. When reconstituted in sterile pH 7.4 0.01M PBS or diluent of antibody the antibody is stable for at least two weeks at 2-4 °C. |
| <b>Name</b>        | TMEM52B Rabbit pAb                                                                                                                                                                              |
