

INE1 Rabbit pAb

Catalog # AP97157

Product Information

Application	IHC-P, IHC-F, IF, E
Primary Accession	O15225
Other Accession	O15225
Predicted	Human
Host	Rabbit
Clonality	Polyclonal
Calculated MW	5365
Physical State	Liquid
Immunogen	KLH conjugated synthetic peptide derived from human INE1
Epitope Specificity	21-40/51
Isotype	IgG
Purity	affinity purified by Protein A
Buffer	0.01M TBS (pH7.4) with 1% BSA, 0.02% Proclin300 and 50% Glycerol.
Important Note	This product as supplied is intended for research use only, not for use in human, therapeutic or diagnostic applications.
Background Descriptions	X chromosome inactivation provides dosage compensation for the expression level of X-linked genes from the single X in males and the two in females. This X chromosome gene is intronless and was identified because its transcription escapes X inactivation in females. This gene does not make a protein.[provided by RefSeq, May 2010]

Additional Information

Other Names	NCRNA00010; INE1_HUMAN; INE1; DXS6974E; inactivation escape 1; inactivation escape 1 (non-protein coding); non-protein coding RNA 10
Dilution	IHC-P=1:100-500,IHC-F=1:100-500,ICC/IF=1:100-500,IF=1:100-500,ELISA=1:5000-10000
Storage	Store at -20 °C for one year. Avoid repeated freeze/thaw cycles. When reconstituted in sterile pH 7.4 0.01M PBS or diluent of antibody the antibody is stable for at least two weeks at 2-4 °C.

Protein Information

Name	INE1
Synonyms	DXS6974E
Tissue Location	Highly expressed in pancreas, heart and liver followed by brain, placenta, lung, skeletal muscle and kidney. Mostly expressed in females.

Please note: All products are 'FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC OR THERAPEUTIC PROCEDURES'.
