

Anti-FOLH1 / PSMA Reference Antibody (rosopatamab)

Recombinant Antibody Catalog # APR10152

Product Information

Application FC, Kinetics, Animal Model

84331

Primary Accession Q04609
Clonality Monoclonal Isotype IgG1

Additional Information

Target/Specificity FOLH1 / PSMA

Endotoxin

Calculated MW

Conjugation Unconjugated

Expression system CHO Cell

Format Purified monoclonal antibody supplied in PBS, pH6.0, without

preservative. This antibody is purified through a protein A column.

Protein Information

Name FOLH1 (HGNC:3788)

Synonyms FOLH, NAALAD1, PSM, PSMA

Function Has both folate hydrolase and N-acetylated-alpha-linked- acidic dipeptidase

(NAALADase) activity. Has a preference for tri- alpha-glutamate peptides. In the intestine, required for the uptake of folate. In the brain, modulates excitatory neurotransmission through the hydrolysis of the neuropeptide, N-aceylaspartylglutamate (NAAG), thereby releasing glutamate. Involved in

prostate tumor progression.

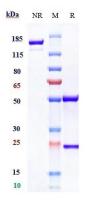

Cellular Location Cell membrane; Single-pass type II membrane protein

Tissue Location Highly expressed in prostate epithelium. Detected in urinary bladder, kidney,

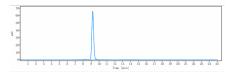

testis, ovary, fallopian tube, breast, adrenal gland, liver, esophagus, stomach, small intestine, colon and brain (at protein level). Detected in the small intestine, brain, kidney, liver, spleen, colon, trachea, spinal cord and the capillary endothelium of a variety of tumors. Expressed specifically in jejunum brush border membranes. In the brain, highly expressed in the ventral striatum and brain stem. Also expressed in fetal liver and kidney Isoform PSMA' is the most abundant form in normal prostate. Isoform PSMA-1 is the

most abundant form in primary prostate tumors. Isoform PSMA-9 is

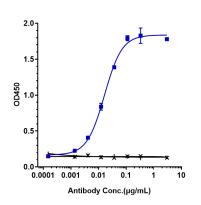

Images

Anti-FOLH1 / PSMA Reference Antibody (rosopatamab) on SDS-PAGE under reducing (R) condition. The gel was stained with Coomassie Blue. The purity of the protein is greater than 95%

The purity of Anti-FOLH1 / PSMA Reference Antibody (rosopatamab)is more than 97.15% ,determined by SEC-HPLC.

Immobilized human FOLH1/PSMA,FC Tag at 2 µg/mL can bind Anti-FOLH1 / PSMA Reference Antibody (rosopatamab),EC50=0.01643 µg/mL
