

Anti-Fibronectin Reference Antibody (radretumab)

Recombinant Antibody

Catalog # APR10479

Product Information

Application	FC, Kinetics, Animal Model
Primary Accession	P02751
Reactivity	Human, Mouse
Clonality	Monoclonal
Isotype	IgG1
Calculated MW	272320

Additional Information

Target/Specificity	Fibronectin
Endotoxin	
Conjugation	Unconjugated
Expression system	CHO Cell
Format	Purified monoclonal antibody supplied in PBS, pH6.0, without preservative. This antibody is purified through a protein A column.

Protein Information

Name	FN1 (HGNC:3778)
Synonyms	FN
Function	Fibronectins bind cell surfaces and various compounds including collagen, fibrin, heparin, DNA, and actin (PubMed: 3024962 , PubMed: 3593230 , PubMed: 3900070 , PubMed: 7989369). Fibronectins are involved in cell adhesion, cell motility, opsonization, wound healing, and maintenance of cell shape (PubMed: 3024962 , PubMed: 3593230 , PubMed: 3900070 , PubMed: 7989369). Involved in osteoblast compaction through the fibronectin fibrillogenesis cell-mediated matrix assembly process, essential for osteoblast mineralization (By similarity). Participates in the regulation of type I collagen deposition by osteoblasts (By similarity). Acts as a ligand for the LILRB4 receptor, inhibiting FCGR1A/CD64-mediated monocyte activation (PubMed: 34089617).
Cellular Location	Secreted, extracellular space, extracellular matrix. Secreted {ECO:0000250 UniProtKB:P11276}
Tissue Location	Expressed in the inner limiting membrane and around blood vessels in the retina (at protein level) (PubMed:29777959) Plasma FN (soluble dimeric form)

is secreted by hepatocytes. Cellular FN (dimeric or cross-linked multimeric forms), made by fibroblasts, epithelial and other cell types, is deposited as fibrils in the extracellular matrix. Ugl-Y1, Ugl-Y2 and Ugl-Y3 are found in urine (PubMed:17614963).

Images

Anti-Fibronectin Reference Antibody (radretumab) on SDS-PAGE under reducing (R) condition. The gel was stained with Coomassie Blue. The purity of the protein is greater than 95%

The purity of Anti-Fibronectin Reference Antibody (radretumab) is more than 95%, determined by SEC-HPLC.
