# Anti-LAG3 / CD223 Reference Antibody (encelimab)

Recombinant Antibody Catalog # APR10545

#### **Product Information**

**Application** FC, Kinetics, Animal Model

Primary Accession P18627

Reactivity Human, Mouse
Clonality Monoclonal
Isotype IgG4SP
Calculated MW 57449

### **Additional Information**

Target/Specificity LAG3 / CD223

**Endotoxin** 

**Conjugation** Unconjugated

**Expression system** CHO Cell

**Format** Purified monoclonal antibody supplied in PBS, pH6.0, without

preservative. This antibody is purified through a protein A column.

### **Protein Information**

Name LAG3 ( HGNC:6476)

Synonyms FDC

**Function** Lymphocyte activation gene 3 protein: Inhibitory receptor on antigen

activated T-cells (PubMed:20421648, PubMed:7805750, PubMed:8647185). Delivers inhibitory signals upon binding to ligands, such as FGL1 (By similarity). FGL1 constitutes a major ligand of LAG3 and is responsible for LAG3 T-cell inhibitory function (By similarity). Following TCR engagement, LAG3 associates with CD3-TCR in the immunological synapse and directly inhibits T-cell activation (By similarity). May inhibit antigen-specific T-cell activation in synergy with PDCD1/PD-1, possibly by acting as a coreceptor for PDCD1/PD-1 (By similarity). Negatively regulates the proliferation, activation, effector function and homeostasis of both CD8(+) and CD4(+) T-cells (PubMed:20421648, PubMed:7805750, PubMed:8647185). Also mediates immune tolerance: constitutively expressed on a subset of regulatory T-cells (Tregs) and contributes to their suppressive function (By similarity). Also acts as a negative regulator of plasmacytoid dendritic cell (pDCs) activation (By similarity). Binds MHC class II (MHC-II); the precise role of MHC-II-binding is however unclear (PubMed:8647185).

**Cellular Location** [Lymphocyte activation gene 3 protein]: Cell membrane; Single-pass type I

membrane protein

**Tissue Location** Primarily expressed in activated T-cells and a subset of natural killer (NK)

cells.

## **Images**

Anti-LAG3 / CD223 Reference Antibody (encelimab) on SDS-PAGE under reducing (R) condition. The gel was stained with Coomassie Blue. The purity of the protein is greater than 95%

The purity of Anti-LAG3 / CD223 Reference Antibody (encelimab)is more than 95% ,determined by SEC-HPLC.
