Anti-CX3CL1 / Fractalkine Reference Antibody (quetmolimab)

Recombinant Antibody Catalog # APR10868

Product Information

FC, Kinetics, Animal Model **Application**

Primary Accession P78423 Reactivity Human Clonality Monoclonal Isotype IgG2SA **Calculated MW** 42203

Additional Information

Target/Specificity CX3CL1 / Fractalkine

Endotoxin

Conjugation Unconjugated

Expression system CHO Cell

Format Purified monoclonal antibody supplied in PBS, pH6.0, without

preservative. This antibody is purified through a protein A column.

Protein Information

Name CX3CL1 {ECO:0000303 | PubMed:9024663}

Function Chemokine that acts as a ligand for both CX3CR1 and integrins ITGAV:ITGB3

> and ITGA4:ITGB1 (PubMed:12055230, PubMed:21829356, PubMed:23125415, PubMed: 9782118, PubMed: 9931005). The CX3CR1-CX3CL1 signaling exerts distinct functions in different tissue compartments, such as immune response, inflammation, cell adhesion and chemotaxis (PubMed:12055230, PubMed: 9024663, PubMed: 9177350, PubMed: 9782118). Regulates leukocyte adhesion and migration processes at the endothelium (PubMed: 9024663, PubMed:9177350). Can activate integrins in both a CX3CR1-dependent and CX3CR1-independent manner (PubMed:23125415, PubMed:24789099). In the

presence of CX3CR1, activates integrins by binding to the classical

ligand-binding site (site 1) in integrins (PubMed:23125415,

PubMed:24789099). In the absence of CX3CR1, binds to a second site (site 2) in integrins which is distinct from site 1 and enhances the binding of other

integrin ligands to site 1 (PubMed:23125415, PubMed:24789099).

Cellular Location Cell membrane; Single-pass type I membrane protein

Tissue Location

Expressed in the seminal plasma, endometrial fluid and follicular fluid (at protein level). Small intestine, colon, testis, prostate, heart, brain, lung, skeletal muscle, kidney and pancreas. Most abundant in the brain and heart

Images

Anti-CX3CL1 / Fractalkine Reference Antibody (quetmolimab) on SDS-PAGE under reducing (R) condition. The gel was stained with Coomassie Blue. The purity of the protein is greater than 95%

The purity of Anti-CX3CL1 / Fractalkine Reference Antibody (quetmolimab)is more than 98.99% ,determined by SEC-HPLC.
