

# Anti-TAG-72 Reference Antibody (Minretumomab)

Catalog # APR11465

## Product Information

|                    |                                                                |
|--------------------|----------------------------------------------------------------|
| <b>Application</b> | Functional assay, Kinetics (SPR), Kinetics (BLI), FACS, E, FTA |
| <b>Reactivity</b>  | Human                                                          |
| <b>Clonality</b>   | Monoclonal                                                     |
| <b>Isotype</b>     | IgG1                                                           |

## Additional Information

|                           |        |
|---------------------------|--------|
| <b>Target/Specificity</b> | TAG-72 |
| <b>Expression system</b>  | CHO    |

## Images

Anti-TAG-72 Reference Antibody (Minretumomab) on SDS-PAGE under reducing (R) condition. The purity of the protein is greater than 95%.

The purity of Anti-TAG-72 Reference Antibody (Minretumomab) is 96.95%, determined by SEC-HPLC.

Jurkat cells were stained with Minretumomab and negative control protein respectively, washed and then followed by PE and analyzed with FACS, with the EC50 is 89.560 nM.
