

# Mouse Anti-Duck IgY (H&L) HRP

Catalog # ASP1030

## Product Information

---

**Application** WB, E

## Additional Information

---

|                           |                                                                                                                                                         |
|---------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Source</b>             | Mouse                                                                                                                                                   |
| <b>Immunogen</b>          | Duck IgY                                                                                                                                                |
| <b>Purification</b>       | The antibody was isolated from ascitic by immunoaffinity chromatography using antigens coupled to agarose beads.                                        |
| <b>Target/Specificity</b> | By immunoelectrophoresis and ELISA this antibody reacts specifically with Duck IgY. No antibody was detected against non immunoglobulin serum proteins. |
| <b>Clonality</b>          | Monoclonal                                                                                                                                              |
| <b>Conjugate</b>          | HRP                                                                                                                                                     |
| <b>Format</b>             | Liquid in 0.01M Phosphate Buffered Saline, pH 7.2, containing 1% BSA, 50% glycerol, 0.05% Sodium Azide                                                  |
| <b>Dilution</b>           | E (1/5000 - 1/20000), WB (1/5000 - 1/20000), IH (1/500 - 1/1000), IC (1/500 - 1/1000)                                                                   |
| <b>Storage</b>            | Shipped at 4°C. Upon delivery aliquot and store at -20°C for one year. Avoid freeze/thaw cycles.                                                        |
