

# Rabbit Anti-Monkey IgG (H&L) FITC

Catalog # ASP1088

## Product Information

---

|                    |        |
|--------------------|--------|
| <b>Application</b> | IF, FC |
| <b>Reactivity</b>  | Monkey |

## Additional Information

---

|                           |                                                                                                                                                           |
|---------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Source</b>             | Rabbit                                                                                                                                                    |
| <b>Immunogen</b>          | Monkey IgG                                                                                                                                                |
| <b>Purification</b>       | The antibody was isolated from ascitic by immunoaffinity chromatography using antigens coupled to agarose beads.                                          |
| <b>Target/Specificity</b> | By immunoelectrophoresis and ELISA this antibody reacts specifically with Monkey IgG. No antibody was detected against non immunoglobulin serum proteins. |
| <b>Clonality</b>          | Polyclonal                                                                                                                                                |
| <b>Conjugate</b>          | FITC                                                                                                                                                      |
| <b>Format</b>             | Liquid in 0.01M Phosphate Buffered Saline, pH 7.2, containing 1% BSA, 50% glycerol, 0.05% Sodium Azide                                                    |
| <b>Dilution</b>           | IF (1/250 - 1/2000), FC (1/250 - 1/2000)                                                                                                                  |
| <b>Storage</b>            | Shipped at 4°C. Upon delivery aliquot and store at -20°C for one year. Avoid freeze/thaw cycles.                                                          |
