

# Rabbit Anti-Rat IgG (H&L) - Alexa Fluor 594

Catalog # ASP1383

## Product Information

---

|                    |           |
|--------------------|-----------|
| <b>Application</b> | IF, E, FC |
| <b>Reactivity</b>  | Rat       |

## Additional Information

---

|                           |                                                                                                                                                        |
|---------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Source</b>             | Rabbit                                                                                                                                                 |
| <b>Immunogen</b>          | Rat IgG                                                                                                                                                |
| <b>Purification</b>       | The antibody was isolated from antisera by immunoaffinity chromatography using antigens coupled to agarose beads.                                      |
| <b>Target/Specificity</b> | By immunoelectrophoresis and ELISA this antibody reacts specifically with Rat IgG. No antibody was detected against non immunoglobulin serum proteins. |
| <b>Clonality</b>          | Polyclonal                                                                                                                                             |
| <b>Conjugate</b>          | Alexa Fluor 594                                                                                                                                        |
| <b>Format</b>             | 1 mg/ml, liquid in 0.01M Phosphate Buffered Saline, pH 7.2, containing 1% BSA, 50% glycerol, 0.02% Sodium Azide                                        |
| <b>Dilution</b>           | IH (1/100 - 1/1000), IF (1/100 - 1/1000), FC (1/1000 - 1/4000), E (Use at an assay dependent concentration)                                            |
| <b>Storage</b>            | Shipped at 4°C. Upon delivery aliquot and store at -20°C for one year. Avoid freeze/thaw cycles.                                                       |
