

## Rabbit Anti-Human IgG F(ab')<sub>2</sub> - APC

Rabbit Polyclonal Secondary Antibody to Human IgG F(ab')<sub>2</sub> APC labeled  
Catalog # ASP2468

### Product Information

---

|                    |           |
|--------------------|-----------|
| <b>Application</b> | IF, FC, E |
| <b>Reactivity</b>  | Human     |

### Additional Information

---

|                           |                                                                                                                                                                               |
|---------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Source</b>             | Rabbit                                                                                                                                                                        |
| <b>Immunogen</b>          | Human IgG F(ab') <sub>2</sub>                                                                                                                                                 |
| <b>Purification</b>       | The antibody was isolated from ascitic by immunoaffinity chromatography using antigens coupled to agarose beads.                                                              |
| <b>Target/Specificity</b> | By immunoelectrophoresis and ELISA this antibody reacts specifically with Human IgG F(ab') <sub>2</sub> . No antibody was detected against non immunoglobulin serum proteins. |
| <b>Clonality</b>          | Polyclonal                                                                                                                                                                    |
| <b>Format</b>             | 1 mg/ml. Liquid in 0.01M Phosphate Buffered Saline, pH 7.2, containing 1% BSA, 50% glycerol, 0.02% Sodium Azide                                                               |
| <b>Dilution</b>           | IH (1/100 - 1/1000), IF (1/100 - 1/1000), FC (1/1000 - 1/4000), E (Use at an assay dependent concentration)                                                                   |
| <b>Storage</b>            | Shipped at 4°C. Upon delivery aliquot and store at -20°C for one year. Avoid freeze/thaw cycles.                                                                              |
