

# Rabbit Polyclonal Secondary Antibody to Goose IgY (H&L) Texas Red labeled

Catalog # ASP2725

## Product Information

---

**Application** IF, FC, E

## Additional Information

---

|                           |                                                                                                                                                          |
|---------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Source</b>             | Rabbit                                                                                                                                                   |
| <b>Immunogen</b>          | Goose IgY                                                                                                                                                |
| <b>Purification</b>       | The antibody was isolated from antisera by immunoaffinity chromatography using antigens coupled to agarose beads.                                        |
| <b>Target/Specificity</b> | By immunoelectrophoresis and ELISA this antibody reacts specifically with Goose IgY. No antibody was detected against non immunoglobulin serum proteins. |
| <b>Clonality</b>          | Polyclonal                                                                                                                                               |
| <b>Conjugate</b>          | Texas Red                                                                                                                                                |
| <b>Format</b>             | 1 mg/ml. Liquid in 0.01M Phosphate Buffered Saline, pH 7.2, containing 1% BSA, 50% glycerol, 0.02% Sodium Azide                                          |
| <b>Dilution</b>           | IH (1/100 - 1/1000), IF (1/100 - 1/1000), FC (1/1000 - 1/4000), E (Use at an assay dependent concentration)                                              |
| <b>Storage</b>            | Shipped at 4°C. Upon delivery aliquot and store at -20°C for one year. Avoid freeze/thaw cycles.                                                         |
