

# Mouse monoclonal antibody to GFP-tag AF660 labeled

Catalog # ASP3152

## Product Information

---

**Application** WB, IF, FC

## Additional Information

---

|                           |                                                                                                                 |
|---------------------------|-----------------------------------------------------------------------------------------------------------------|
| <b>Source</b>             | Mouse                                                                                                           |
| <b>Immunogen</b>          | Recombinant protein corresponding to GFP-tag.                                                                   |
| <b>Purification</b>       | The antibody was purified by Protein A/G affinity chromatography.                                               |
| <b>Target/Specificity</b> | Recognizes GFP and GFP tag fusion proteins.                                                                     |
| <b>Clonality</b>          | Monoclonal                                                                                                      |
| <b>Conjugate</b>          | AF660                                                                                                           |
| <b>Format</b>             | 1 mg/ml. Liquid in 0.01M Phosphate Buffered Saline, pH 7.2, containing 1% BSA, 50% glycerol, 0.02% Sodium Azide |
| <b>Dilution</b>           | WB (1/2000 - 1/5000), IF (1/500 - 1/2000), FC (1/1000 - 1/4000)                                                 |
| <b>Storage</b>            | Shipped at 4°C. Upon delivery aliquot and store at -20°C for one year. Avoid freeze/thaw cycles.                |
