Anti-Human IgA (alpha chain) (Biotin Conjugated) Secondary Antibody

Goat Polyclonal, Biotin Catalog # ASR1779

Product Information

Description Anti-HUMAN IgA (alpha chain) (GOAT) Antibody Biotin Conjugated

Host Goat **Conjugate** Biotin

FP Value 10-20 moles Biotin per mole of IgG

Target SpeciesHumanReactivityHumanClonalityPolyclonalPhysical StateLyophilized

Host Isotype IgG
Target Isotype IgA

Buffer 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2

Immunogen Anti-Human IgA alpha heavy chain antibody was produced by repeated

immunization with Human IgA alpha heavy chain in goat.

Reconstitution Volume 1.0 mL

Reconstitution Buffer Restore with deionized water (or equivalent)

Stabilizer 10 mg/mL Bovine Serum Albumin (BSA) - Immunoglobulin and Protease free

Preservative 0.01% (w/v) Sodium Azide

Additional Information

Shipping Condition Ambient

Application Note Anti-HUMAN IgA (alpha chain) (GOAT) Antibody is suitable for

immunoblotting (western or dot blot), ELISA, immunoelectron microscopy and immunohistochemistry as well as other antibody based enzymatic assays

requiring lot-to-lot consistency.

Purity Anti-HUMAN IgA (alpha chain) (GOAT) Antibody was prepared from

monospecific antiserum by immunoaffinity chromatography using Human IgA coupled to agarose beads followed by solid phase adsorption(s) to remove any unwanted reactivities. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-biotin, anti-Goat Serum, Human IgA and Human Serum. No reaction was observed against other Human heavy or

light chain proteins.

Storage Condition Store vial at 4° C prior to restoration. For extended storage aliquot

contents and freeze at -20° C or below. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted

liquid. Dilute only prior to immediate use.

Precautions Note

This product is for research use only and is not intended for therapeutic or diagnostic applications.

Background

Anti-Human IgA alpha heavy chain antibody generated in goat detects specifically Human IgA alpha heavy chain. This secondary antibody anti-Human is ideal for investigators who routinely perform ELISA, Sandwich ELISA, titration assays, western-blot, immunoprecipitation and more generally immunoassays.

Please note: All products are 'FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC OR THERAPEUTIC PROCEDURES'.
