Application Note Antibody Sheep IgG (H&L) Antibody is suitable for immunoblotting (western

or dot blot), ELISA, and immunohistochemistry assays requiring lot-to-lot

consistency.

Purity Anti-Sheep IgG (H&L) Antibody was prepared from monospecific antiserum

by immunoaffinity chromatography using Sheep IgG coupled to agarose beads followed by solid phase adsorption(s) to remove any unwanted reactivities. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-Alkaline Phosphatase (calf intestine), anti-Donkey Serum,

Sheep IgG and Sheep Serum.

Storage Condition Store vial at 4° C before opening. DO NOT FREEZE. This product is stable at

4° C as an undiluted liquid. Dilute only prior to immediate use. Freezing alkaline phosphatase conjugates will result in a substantial loss of enzymatic

activity.
