

RAT IgG1 Kappa (κ) isotype control

Monoclonal RG1K IgG1 kappa , Unconjugated Catalog # ASR2534

Product Information

Description RAT IgG1 Kappa (κ) isotype control

Conjugate Unconjugated

Clonality Monoclonal RG1K IgG1 kappa

Physical State Liquid (sterile filtered)

Host Isotype IgG1

Buffer 0.02 M Potassium Phosphate, 0.5 M Sodium Chloride, pH 7.2

Species of Origin Rat Stabilizer None

Preservative 0.01% (w/v) Sodium Azide

Additional Information

Shipping Condition Wet Ice

Application Note RAT IgG1 Kappa isotype control can be utilized as a control or standard

reagent in Western Blotting, Flow Cytometry, and ELISA experiments where determination of sample isotype is important. Specific conditions should be

optimized by user.

Purity RAT IgG1 Kappa isotype control has been prepared from concentrated cell

culture supernatant by immunoaffinity chromatography using protein G. In an Ouchterlony double diffusion assay the material is non-reactive with

antisera to rat IgG2a, IgG2b, IgG3, IgM, and IgA. Assay by

immunoelectrophoresis resulted in a single precipitin arc against anti-Rat IgG and anti-Rat serum. Light and heavy chain composition has been confirmed.

Storage Condition Store vial at 4° C prior to opening. This product is stable 4° C as an

undiluted liquid. Dilute only prior to immediate use. For extended storage mix with an equal volume of glycerol, aliquot contents and freeze at -20° C or

below. Avoid cycles of freezing and thawing.

Precautions NoteThis product is for research use only and is not intended for therapeutic or

diagnostic applications.

Background

RAT IgG1 Kappa isotype control is used in flow cytometry, western blot and ELISA and differentiate between immunoglobulin classes and subclasses. Isotype controls allow for the genetic variations or differences in the constant regions of the heavy and light chains. In Rat there are six relevant heavy chain isotypes and two light chain isotypes: heavy chain a - IgA, ? - IgG 1, 2a, 2b, 2c and \Box - IgM, light chain ? and ?

Please note: All products are 'FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC OR THERAPEUTIC PROCEDURES'.
