F(ab')2 Anti-MOUSE IgM (mu chain) (Peroxidase Conjugated) Secondary Antibody

Goat Polyclonal, Peroxidase (Horseradish) Catalog # ASR2991

## **Product Information**

**Description** F(ab')2 Anti-MOUSE IgM (mu chain) (GOAT) Antibody Peroxidase

Conjugated

Host Goat

Conjugate Peroxidase (Horseradish)

**Target Species** Mouse Reactivity Mouse Polyclonal Clonality **Physical State** Lyophilized IgG F(ab')2 **Host Isotype** IgM □chain Target Isotype

**Buffer** 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2

F(ab')2 Anti-Mouse IgM mu heavy chain was produced by repeated **Immunogen** 

immunization with Mouse IgM mu heavy chain in goat.

**Reconstitution Volume** 500 □

**Reconstitution Buffer** 

Restore with deionized water (or equivalent)

Stabilizer 10 mg/mL Bovine Serum Albumin (BSA) - Immunoglobulin and Protease free

**Preservative** 0.01% (w/v) Gentamicin Sulfate. Do NOT add Sodium Azide!

## **Additional Information**

**Shipping Condition Ambient** 

F(ab')2 Anti-Mouse IgM mu heavy chain is suitable for use in **Application Note** 

immunoelectrophoresis, western-blot, competitive western-blot, ELISA and competitive ELISA assays. Specific conditions for reactivity and signal

detection should be optimized by the end user.

This product was prepared from monospecific antiserum by immunoaffinity **Purity** 

> chromatography using Mouse IgM coupled to agarose beads followed by solid phase adsorption(s) to remove any unwanted reactivities, pepsin digestion and chromatographic separation. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-Peroxidase, anti-Goat Serum, Mouse IgM and Mouse Serum. No reaction was observed against anti-Pepsin or anti-Goat IgG F(c). Specificity was confirmed by ELISA at less than 1%

cross reactivity against other mouse heavy or light chain isotypes.

Store vial at 4° C prior to restoration. For extended storage aliquot **Storage Condition** 

contents and freeze at -20° C or below. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted

liquid. Dilute only prior to immediate use.

**Precautions Note** 

This product is for research use only and is not intended for therapeutic or diagnostic applications.

## **Background**

F(ab')2 Anti-Mouse IgM mu heavy chain generated in goat detects specifically Mouse IgM mu heavy chain. This secondary antibody anti-Mouse is ideal for investigators who routinely perform ELISA, Sandwich ELISA, titration assays, western-blot, immunoprecipitation and more generally immunoassays.

Please note: All products are 'FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC OR THERAPEUTIC PROCEDURES'.
