

Anti-Ferret IgA (alpha chain) Secondary Antibody

Goat Polyclonal, Peroxidase (Horseradish) Catalog # ASR3008

Product Information

Description Anti-FERRET IgA (alpha chain) (GOAT) Antibody Peroxidase Conjugated

Host

Conjugate Peroxidase (Horseradish)

Target Species Ferret Clonality Polyclonal **Physical State** Lyophilized

Host Isotype IgG **Target Isotype** IgA

Buffer 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2

Anti-Ferret IgA was produced by repeated immunization with ferret IgA **Immunogen**

alpha heavy chain in goat.

Reconstitution Volume

Reconstitution Buffer

Restore with deionized water (or equivalent)

1.0 mL

Stabilizer 10 mg/mL Bovine Serum Albumin (BSA) - Immunoglobulin and Protease free

Preservative 0.01% (w/v) Thimerosal

Additional Information

Shipping Condition Ambient

Ferret IgA (alpha chain) antibody has been assayed against 1.0 ug of Ferret **Application Note**

IgA in a standard capture ELISA using ABTS

(2,2'-azino-bis-[3-ethylbenthiazoline-6-sulfonic acid]) code # ABTS-100 as a substrate for 30 minutes at room temperature. A working dilution of 1:2,000 to 1:8,000 of the reconstitution concentration is suggested for Anti-Ferret IgA

(alpha chain) Antibody.

Anti-Ferret IgA (alpha chain) Antibody was prepared from monospecific Purity

> antiserum by immunoaffinity chromatography using Ferret IgA coupled to agarose beads followed by solid phase adsorption(s) to remove any unwanted reactivities. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-Peroxidase, anti-Goat Serum, Ferret IgA and Ferret Serum. Specificity was confirmed by ELISA at less than 1% cross reactivity against

other Ferret heavy or light chain isotypes.

Storage Condition Store vial at 4° C prior to restoration. For extended storage aliquot contents

and freeze at -20° C or below. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room

temperature. This product is stable for several weeks at 4° C as an undiluted

liquid. Dilute only prior to immediate use.

Precautions Note This product is for research use only and is not intended for therapeutic or

diagnostic applications.

Background

Anti-Ferret IgA (alpha chain) Antibody detects specifically ferret IgA (alpha chain). This secondary Anti-Ferret IgA Antibody is ideal for investigators who routinely perform titration assays, western-blot, immunoprecipitation and more generally immunoassays. Anti-Ferret IgA (alpha chain) Antibody is ideal for investigators in Cancer, Immunology, and Microbiology research.

Please note: All products are 'FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC OR THERAPEUTIC PROCEDURES'.
