

## Anti-Mouse IgG2a (Gamma 2a chain) (Peroxidase Conjugated) Secondary Antibody

Rabbit Polyclonal, Peroxidase (Horseradish) Catalog # ASR3055

## **Product Information**

**Description** Anti-MOUSE IgG2a (Gamma 2a chain) (RABBIT) Antibody Peroxidase

Conjugated

**Host** Rabbit

**Conjugate** Peroxidase (Horseradish)

Target SpeciesMouseClonalityPolyclonalPhysical StateLyophilizedHost IsotypeIgGTarget IsotypeIgG2a

Buffer 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2 Immunogen Anti-Mouse IgG2a heavy chain antibody was produced by repeated

immunization withMouse IgG2a heavy chain in rabbit.

**Reconstitution Volume** 1.0 mL

**Reconstitution Buffer** Restore with deionized water (or equivalent)

Stabilizer 10 mg/mL Bovine Serum Albumin (BSA) - Immunoglobulin and Protease free

**Preservative** 0.01% (w/v) Gentamicin Sulfate. Do NOT add Sodium Azide!

## **Additional Information**

Shipping Condition Ambient

**Application Note** Anti-Mouse IgG2a heavy chain antibody is suitable for highly specific

immunological methods requiring extremely low background levels, lot-to-lot

consistency, high titer and specificity.

**Purity** This product was prepared from monospecific antiserum by immunoaffinity

chromatography using Mouse IgG coupled to agarose beads followed by solid

phase adsorption(s) to remove any unwanted reactivities. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-Peroxidase, anti-Rabbit Serum, Mouse IgG and Mouse Serum. Specificity was confirmed by ELISA at less than 1% cross reactivity against

other mouse or heavy or light chain isotypes.

**Storage Condition** Store vial at 4° C prior to restoration. For extended storage aliquot

contents and freeze at -20° C or below. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted

liquid. Dilute only prior to immediate use.

**Precautions Note**This product is for research use only and is not intended for therapeutic or

diagnostic applications.

## **Background**

Anti-Mouse IgG2a heavy chain antibody generated in rabbit detects specifically Mouse IgG2a heavy chain. This secondary antibody anti-Mouse is ideal for investigators who routinely perform titration assays, western-blot, immunoprecipitation and more generally immunoassays.

Please note: All products are 'FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC OR THERAPEUTIC PROCEDURES'.
