

APOL3 Antibody (monoclonal) (M01)

Mouse monoclonal antibody raised against a partial recombinant APOL3. Catalog # AT1170a

Product Information

Application WB, E
Primary Accession O95236
Other Accession NM_145640
Reactivity Human
Host mouse
Clonality monoclonal
Isotype IgG2a Kappa

Clone Names 4E6 Calculated MW 44278

Additional Information

Gene ID 80833

Other Names Apolipoprotein L3, Apolipoprotein L-III, ApoL-III, TNF-inducible protein

CG12-1, CG12_1, APOL3

Target/Specificity APOL3 (NP_663615, 240 a.a. ~ 336 a.a) partial recombinant protein with GST

tag. MW of the GST tag alone is 26 KDa.

Dilution WB~~1:500~1000 E~~N/A

Format Clear, colorless solution in phosphate buffered saline, pH 7.2.

Storage Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.

Precautions APOL3 Antibody (monoclonal) (M01) is for research use only and not for use

in diagnostic or therapeutic procedures.

Background

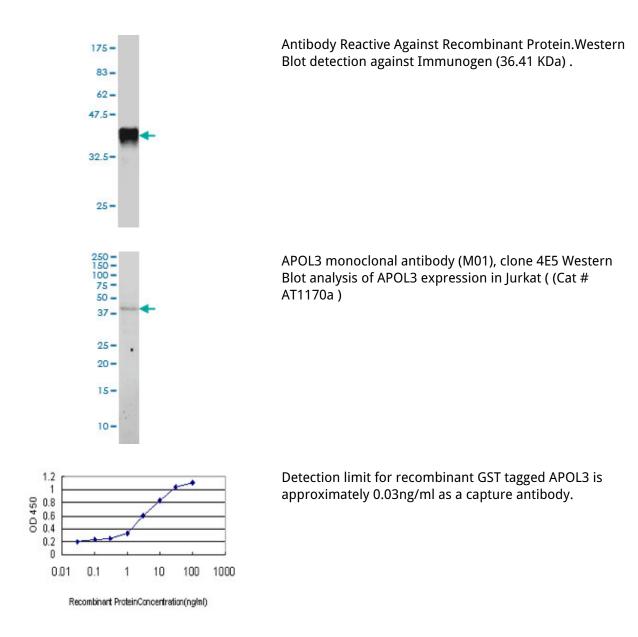

This gene is a member of the apolipoprotein L gene family, and it is present in a cluster with other family members on chromosome 6. The encoded protein is found in the cytoplasm, where it may affect the movement of lipids, including cholesterol, and/or allow the binding of lipids to organelles. In addition, expression of this gene is up-regulated by tumor necrosis factor-alpha in endothelial cells lining the normal and atherosclerotic iliac artery and aorta. Alternative splicing results in multiple transcript variants.
