

# CAPNS1 Antibody (monoclonal) (M01)

Mouse monoclonal antibody raised against a partial recombinant CAPNS1. Catalog # AT1391a

### **Product Information**

**Application** WB, IHC, IF, E **Primary Accession** P04632 **Other Accession** BC000592 Reactivity Human, Rat Host mouse Clonality monoclonal Isotype IgG1 Kappa **Clone Names** 3C4 Calculated MW 28316

#### **Additional Information**

Gene ID 826

Other Names Calpain small subunit 1, CSS1, Calcium-activated neutral proteinase small

subunit, CANP small subunit, Calcium-dependent protease small subunit, CDPS, Calcium-dependent protease small subunit 1, Calpain regulatory

subunit, CAPNS1, CAPN4, CAPNS

**Target/Specificity** CAPNS1 (AAH00592, 172 a.a. ~ 260 a.a) partial recombinant protein with GST

tag. MW of the GST tag alone is 26 KDa.

**Dilution** WB~~1:500~1000 IHC~~1:100~500 IF~~1:50~200 E~~N/A

**Format** Clear, colorless solution in phosphate buffered saline, pH 7.2.

**Storage** Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.

**Precautions** CAPNS1 Antibody (monoclonal) (M01) is for research use only and not for use

in diagnostic or therapeutic procedures.

## **Background**

Calpains are a ubiquitous, well-conserved family of calcium-dependent, cysteine proteases. Calpain families have been implicated in neurodegenerative processes, as their activation can be triggered by calcium influx and oxidative stress. Calpain I and II are heterodimeric with distinct large subunits associated with common small subunits, all of which are encoded by different genes. This gene encodes a small subunit common to both calpain I and II and is associated with myotonic dystrophy. Two transcript variants encoding the same protein have been identified for this gene.
