

# FBN1 Antibody (monoclonal) (M01)

Mouse monoclonal antibody raised against a partial recombinant FBN1. Catalog # AT2010a

### **Product Information**

Application WB, IHC, E
Primary Accession P35555
Other Accession NM\_000138
Reactivity Human
Host Mouse
Clonality monoclonal
Isotype IgG2a Kappa

Clone Names 3H6
Calculated MW 312298

### **Additional Information**

Gene ID 2200

Other Names Fibrillin-1, FBN1, FBN

Target/Specificity FBN1 (NP\_000129, 2772 a.a. ~ 2871 a.a) partial recombinant protein with GST

tag. MW of the GST tag alone is 26 KDa.

**Dilution** WB~~1:500~1000 IHC~~1:100~500 E~~N/A

**Format** Clear, colorless solution in phosphate buffered saline, pH 7.2.

**Storage** Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.

**Precautions** FBN1 Antibody (monoclonal) (M01) is for research use only and not for use in

diagnostic or therapeutic procedures.

## Background

This gene encodes a member of the fibrillin family. The encoded protein is a large, extracellular matrix glycoprotein that serve as a structural component of 10-12 nm calcium-binding microfibrils. These microfibrils provide force bearing structural support in elastic and nonelastic connective tissue throughout the body. Mutations in this gene are associated with Marfan syndrome, isolated ectopia lentis, autosomal dominant Weill-Marchesani syndrome, MASS syndrome, and Shprintzen-Goldberg craniosynostosis syndrome.
