

GLMN Antibody (monoclonal) (M01)

Mouse monoclonal antibody raised against a full length recombinant GLMN.

Catalog # AT2207a

Product Information

Application	WB, IF, IP, E
Primary Accession	Q92990
Other Accession	BC001257
Reactivity	Human
Host	mouse
Clonality	monoclonal
Isotype	IgG1 Kappa
Clone Names	1C12
Calculated MW	68208

Additional Information

Gene ID	11146
Other Names	Glomulin, FK506-binding protein-associated protein, FAP, FKBP-associated protein, GLMN, FAP48, FAP68, VMGLOM
Target/Specificity	GLMN (AAH01257, 1 a.a. ~ 594 a.a) full-length recombinant protein with GST tag. MW of the GST tag alone is 26 KDa.
Dilution	WB~~1:500~1000 IF~~1:50~200 IP~~N/A E~~N/A
Format	Clear, colorless solution in phosphate buffered saline, pH 7.2 .
Storage	Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.
Precautions	GLMN Antibody (monoclonal) (M01) is for research use only and not for use in diagnostic or therapeutic procedures.

Background

This gene encodes a phosphorylated protein that is a member of a Skp1-Cullin-F-box-like complex. The protein is essential for normal development of the vasculature and mutations in this gene have been associated with glomuvenous malformations, also called glomangiomas. Alternatively spliced variants that encode different protein isoforms have been described but the full-length nature of only one has been determined.
