

# NPY1R Antibody (monoclonal) (M03)

Mouse monoclonal antibody raised against a partial recombinant NPY1R. Catalog # AT3088a

### **Product Information**

ApplicationWB, EPrimary AccessionP25929Other AccessionBC036657ReactivityHumanHostmouseClonalitymonoclonalIsotypeIgG2a Kappa

Clone Names 2G2 Calculated MW 44392

### **Additional Information**

**Gene ID** 4886

Other Names Neuropeptide Y receptor type 1, NPY1-R, NPY1R, NPYR, NPYY1

Target/Specificity NPY1R (AAH36657, 1 a.a. ~ 115 a.a) partial recombinant protein with GST tag.

MW of the GST tag alone is 26 KDa.

**Dilution** WB~~1:500~1000 E~~N/A

**Format** Clear, colorless solution in phosphate buffered saline, pH 7.2.

**Storage** Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.

**Precautions** NPY1R Antibody (monoclonal) (M03) is for research use only and not for use

in diagnostic or therapeutic procedures.

### **Background**

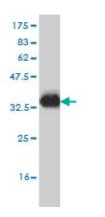

Neuropeptide Y (NPY; MIM 162640) is one of the most abundant neuropeptides in the mammalian nervous system and exhibits a diverse range of important physiologic activities, including effects on psychomotor activity, food intake, regulation of central endocrine secretion, and potent vasoactive effects on the cardiovascular system. Two major subtypes of NPY (Y1 and Y2) have been defined by pharmacologic criteria. NPY receptors, such as NPY1R, have been identified in a variety of tissues, including brain, spleen, small intestine, kidney, testis, placenta, and aortic smooth muscle (Herzog et al., 1992 [PubMed 1321422]).
