

# PAX7 Antibody (monoclonal) (M07)

Mouse monoclonal antibody raised against a partial recombinant PAX7. Catalog # AT3192a

### **Product Information**

**Application** WB, IF, E **Primary Accession** P23759 **Other Accession** NM 002584 Reactivity Human Host mouse Clonality monoclonal Isotype IgG2b Kappa **Clone Names** 1G11

### **Additional Information**

**Calculated MW** 

**Gene ID** 5081

Other Names Paired box protein Pax-7, HuP1, PAX7, HUP1

55119

**Target/Specificity** PAX7 (NP\_002575.1, 411 a.a. ~ 520 a.a) partial recombinant protein with GST

tag. MW of the GST tag alone is 26 KDa.

**Dilution** WB~~1:500~1000 IF~~1:50~200 E~~N/A

**Format** Clear, colorless solution in phosphate buffered saline, pH 7.2.

**Storage** Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.

**Precautions** PAX7 Antibody (monoclonal) (M07) is for research use only and not for use in

diagnostic or therapeutic procedures.

# Background

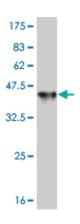

This gene is a member of the paired box (PAX) family of transcription factors. Members of this gene family typically contain a paired box domain, an octapeptide, and a paired-type homeodomain. These genes play critical roles during fetal development and cancer growth. The specific function of the paired box 7 gene is unknown but speculated to involve tumor suppression since fusion of this gene with a forkhead domain family member has been associated with alveolar rhabdomyosarcoma. Three transcript variants encoding different isoforms have been found for this gene.
