

# PHF1 Antibody (monoclonal) (M05)

Mouse monoclonal antibody raised against a partial recombinant PHF1. Catalog # AT3295a

#### **Product Information**

ApplicationWB, EPrimary AccessionO43189Other AccessionNM\_024165ReactivityHumanHostmouseClonalitymonoclonalIsotypeIgG2a Kappa

Clone Names 4F5 Calculated MW 62106

### **Additional Information**

**Gene ID** 5252

Other Names PHD finger protein 1, Protein PHF1, hPHF1, Polycomb-like protein 1, hPCl1,

PHF1, PCL1

**Target/Specificity** PHF1 (NP\_077084, 2 a.a. ~ 100 a.a) partial recombinant protein with GST tag.

MW of the GST tag alone is 26 KDa.

**Dilution** WB~~1:500~1000 E~~N/A

**Format** Clear, colorless solution in phosphate buffered saline, pH 7.2.

**Storage** Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.

**Precautions** PHF1 Antibody (monoclonal) (M05) is for research use only and not for use in

diagnostic or therapeutic procedures.

## **Background**

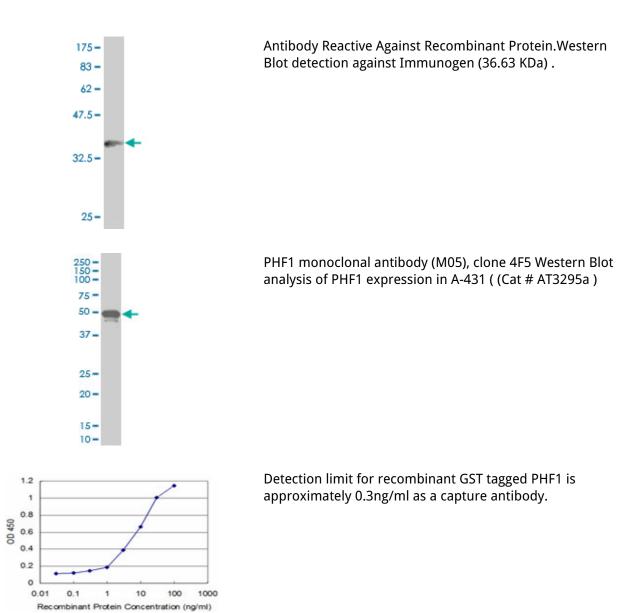

This gene encodes a Polycomb group protein. The protein is a component of a histone H3 lysine-27 (H3K27)-specific methyltransferase complex, and functions in transcriptional repression of homeotic genes. The protein is also recruited to double-strand breaks, and reduced protein levels results in X-ray sensitivity and increased homologous recombination. Multiple transcript variants encoding different isoforms have been found for this gene.
