

RALGDS Antibody (monoclonal) (M01)

Mouse monoclonal antibody raised against a partial recombinant RALGDS.

Catalog # AT3556a

Product Information

Application	E
Primary Accession	Q12967
Other Accession	BC059362
Reactivity	Human
Host	mouse
Clonality	monoclonal
Isotype	IgG1 Kappa
Clone Names	1A11
Calculated MW	100607

Additional Information

Gene ID	5900
Other Names	Ral guanine nucleotide dissociation stimulator, RalGDS, Ral guanine nucleotide exchange factor, RalGEF, RALGDS, KIAA1308, RGF
Target/Specificity	RALGDS (AAH59362, 793 a.a. ~ 902 a.a) partial recombinant protein with GST tag. MW of the GST tag alone is 26 KDa.
Dilution	E~~N/A
Format	Clear, colorless solution in phosphate buffered saline, pH 7.2 .
Storage	Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.
Precautions	RALGDS Antibody (monoclonal) (M01) is for research use only and not for use in diagnostic or therapeutic procedures.

Images

Detection limit for recombinant GST tagged RALGDS is approximately 0.1 ng/ml as a capture antibody.

Proximity Ligation Analysis of protein-protein interactions between MAPK3 and RALGDS HeLa cells were stained with anti-MAPK3 rabbit purified polyclonal 1:1200 and anti-RALGDS mouse monoclonal antibody 1:50. Each red dot represents the detection of protein-protein interaction complex, and nuclei were counterstained with DAPI (blue).
