

RIN2 Antibody (monoclonal) (M04)

Mouse monoclonal antibody raised against a partial recombinant RIN2.

Catalog # AT3643a

Product Information

Application	WB, E
Primary Accession	Q8WYP3
Other Accession	NM_018993
Reactivity	Human
Host	mouse
Clonality	monoclonal
Isotype	IgG2a Kappa
Clone Names	1E7
Calculated MW	100163

Additional Information

Gene ID	54453
Other Names	Ras and Rab interactor 2, Ras association domain family 4, Ras inhibitor JC265, Ras interaction/interference protein 2, RIN2, RASSF4
Target/Specificity	RIN2 (NP_061866, 786 a.a. ~ 894 a.a) partial recombinant protein with GST tag. MW of the GST tag alone is 26 KDa.
Dilution	WB~~1:500~1000 E~~N/A
Format	Clear, colorless solution in phosphate buffered saline, pH 7.2 .
Storage	Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.
Precautions	RIN2 Antibody (monoclonal) (M04) is for research use only and not for use in diagnostic or therapeutic procedures.

Background

The RAB5 protein is a small GTPase involved in membrane trafficking in the early endocytic pathway. The protein encoded by this gene binds the GTP-bound form of the RAB5 protein preferentially over the GDP-bound form, and functions as a guanine nucleotide exchange factor for RAB5. The encoded protein is found primarily as a tetramer in the cytoplasm and does not bind other members of the RAB family.
