

SMAD6 Antibody (monoclonal) (M07)

Mouse monoclonal antibody raised against a partial recombinant SMAD6. Catalog # AT3946a

Product Information

ApplicationWB, EPrimary AccessionO43541Other AccessionNM_005585ReactivityHumanHostMouseClonalitymonoclonalIsotypeIgG2b Kappa

Clone Names 4F4 Calculated MW 53497

Additional Information

Gene ID 4091

Other Names Mothers against decapentaplegic homolog 6, MAD homolog 6, Mothers

against DPP homolog 6, SMAD family member 6, SMAD 6, Smad6, hSMAD6,

SMAD6, MADH6

Target/Specificity SMAD6 (NP_005576, 285 a.a. ~ 384 a.a) partial recombinant protein with GST

tag. MW of the GST tag alone is 26 KDa.

Dilution WB~~1:500~1000 E~~N/A

Format Clear, colorless solution in phosphate buffered saline, pH 7.2.

Storage Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.

Precautions SMAD6 Antibody (monoclonal) (M07) is for research use only and not for use

in diagnostic or therapeutic procedures.

Background

The protein encoded by this gene belongs to the SMAD family of proteins, which are related to Drosophila 'mothers against decapentaplegic' (Mad) and C. elegans Sma. SMAD proteins are signal transducers and transcriptional modulators that mediate multiple signaling pathways. This protein functions in the negative regulation of BMP and TGF-beta/activin-signalling. Multiple transcript variants encoding different isoforms have been found for this gene.
