

TACC3 Antibody (monoclonal) (M02)

Mouse monoclonal antibody raised against a partial recombinant TACC3. Catalog # AT4133a

Product Information

Application	WB, IHC, E
Primary Accession	<u>Q9Y6A5</u>
Other Accession	<u>NM_006342</u>
Reactivity	Human, Rat
Host	mouse
Clonality	monoclonal
Isotype	IgG3 Kappa
Clone Names	6C4
Calculated MW	90360

Additional Information

Gene ID	10460
Other Names	Transforming acidic coiled-coil-containing protein 3, ERIC-1, TACC3, ERIC1
Target/Specificity	TACC3 (NP_006333, 1 a.a. ~ 100 a.a) partial recombinant protein with GST tag. MW of the GST tag alone is 26 KDa.
Dilution	WB~~1:500~1000 IHC~~1:100~500 E~~N/A
Format	Clear, colorless solution in phosphate buffered saline, pH 7.2 .
Storage	Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.
Precautions	TACC3 Antibody (monoclonal) (M02) is for research use only and not for use in diagnostic or therapeutic procedures.

Background

The function of this gene has not yet been determined; however, it is speculated that it may be involved in cell growth and differentiation. Expression of this gene is up-regulated in some cancer cell lines, and in embryonic day 15 in mice.
