

Protein A

Catalog # PVGS1013

Product Information

Purity This product is highly purified, SDS-PAGE and HPLC analyses revealed its

purity of more than 95%.

Formulation Lyophilized from 1X PBS

Additional Information

Target Background Purified protein A is a highly stable cell surface receptor produced by several

strains of Staphylococcus aureus. With a molecular weight of 35,000 Da, it is made up of a single polypeptide chain containing five Ig-binding regions.

Purified protein A is ideal for purification of polyclonal or monoclonal IgG

antibodies. Purified protein A binds to most human and mouse IgG

subclasses (e.g. human IgG1, IgG2, IgG4; mouse IgG1, IgG2a, IgG2b, IgG3). It also binds to total IgG from cow, guinea pig, hamster, horse, pig, and rabbit.

Protein A has little affinity to chicken IgY.
